---

spoke to Joe this morning but still no dates (although they want to get down there soon). Arlene Anderson will be the OSC and Jeff C and Nick Magriples will be going down as well. Joe was wondering if you could be available to go with them. I told him that was hard to gauge without dates! You could touch base with Arlene and see if she knows any more.

---

Last week Joe spoke to you about this issue. Do you have a date or do you know when are they planning to collect the samples?  
See message from ATSDR below.

Thanks  
Denise

=====

Hi Denise,

I hope you are doing well! I was just wondering if you had any update on when EPA might be doing that indoor air sampling we recommended for the Cabo Rojo site, especially at the Head Start facility.  
The letter health consultation you reviewed earlier is working its way through ATSDR clearance, and some of the reviewers have asked if we can put down a planned date for the sampling.  
Thanks!

Jill
